MISSOURI								
University of Missouri	Columbia	573-882-7821	https://research.missouri.edu/pet-imaging-center	Jeffrey Bryan, DVM, MS, PhD, DACVIM(Oncology)	Canon Celesteion PET/CT with TOF scanner and 16 slice CT	F-18-FDG, NaF-18, F-18-FLT, Cu-64, Y-90, I-124, Ga-68	Dedicated Veterinary Facility	The Canon/Toshiba Celestion PET/CT system includes a 90cm wide CT bore and 70cm true-field of view for better access and positioning. Imalytics is a workstation that consists of a flexible modular system with standard and advanced tools for data and workflow management, image registration, segmentation, processing, visualization and processing quantitative measurements. The workstation is a component in the PET/CT suite. The "Pops and Tango McCosh" Radiation Isolation Suite is a step-down recovery unit designed to keep animals exposed to radiation separate from the rest of the Veterinary Health Center.
